Re Sustainability and Dadu's drive to raise public awareness of recycling

Amidst rising temperatures, environmental concerns are inspiring a surge in consumer activism. People are advocating for cracker-free Diwali and using organic colours for Holi. They choose biodegradable materials for idols and avoid plastic in gift packaging. This growing trend reflects a strong commitment to celebrating in harmony with nature and promoting sustainability. Organisations and individuals are actively driving environmental betterment through sustainable practices, demonstrating their unwavering dedication to responsible consumption. This World Environment Day, ReSL and Dadu's Sweets showcased that #Green Transformation is possible when businesses choose innovative strategies to responsibly recycle waste. In the hospitality and retail industries, packaging is a significant contributor to waste production and subsequent management, leading

to alarming ecological waste accumulation. According to a report published by the Central Pollution Control Board (CPCB) in 2018, the total annual generation of plastic waste in India was estimated to be around 3.3 million metric tonnes. On this note, Dadu's Sweets and Re Sustainability have joined hands in a highly impactful campaign.
